Mail-mine 4/14/71

Jerry took Michele to lunch today. She told him that the second Bandy show had gotten the largest mail and more calls than any other and that she had forwarded the mail to me.

It hasn't yet arrived. It is more than 2 weeks.

By coincidence, I got something Bernabei had sent 3/8 yesterday, without cancellation and with the flap resealed with rubber cement that had not been allowed to dry first.
